SUMMARY

Dedicated Information Technology student and Full-Stack Developer specializing in Python/Django backend architecture and React.js frontend development. Adept at building highly interactive, responsive user interfaces and architecting RESTful APIs with secure JWT authentication. Actively seeking an internship to contribute to scalable web solutions and dynamic development teams.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Tailwind CSS
 - **Backend & Security:** Python, Django, Django REST Framework (DRF), JWT, RESTful APIs
 - **Databases & Tools:** MySQL, SQLite, Git, GitHub, Postman, Vite, Axios, React Router, Version Control
 - **Core Concepts:** State Management (Hooks), Asynchronous Programming, Responsive UI Design
-

PROJECTS

Travel Website | *Django, SQLite, MVT Architecture*

- Built a dynamic travel platform using Django and MVT architecture, featuring a custom user dashboard and destination management.
- Designed and implemented a relational database schema in SQLite to efficiently handle 10+ data entities for destinations and user profiles.
- Link: <https://django-travelwebsite.onrender.com/>

E-Commerce Website | *React.js, Django REST Framework, JWT*

- Engineered a fully responsive E-Commerce interface using React.js, optimizing product catalog rendering and decreasing load times by 15%.
- Engineered key client-side functionalities including Add to Cart, Update Quantity, and Delete Item with real-time UI updates.
- Integrated JWT authentication flows to ensure secure user login and session management across the platform.
- Link: <https://nileshmantati.github.io/Cara-Website/>

Stock predictions_portal | *React.js, Django, Axios*

- Designed and developed a secure portal integrating a React frontend with a Django backend to manage and display predictive data.
 - Implemented secure route management and configured Axios interceptors for streamlined API communication between the frontend and backend.
-

EDUCATION & CERTIFICATION

- **B.Tech in Information Technology** | Gandhinagar Institute of Technology (GIT) | Expected 2027
- **Diploma in Information Technology** | Monark University | 2021-2024
- **Full-Stack Web Development Course** | Creative Design & Multimedia Institute
