SUMMARY

A self-driven and dedicated third-year Information Technology Engineering student at GU, with a strong foundation in full stack web development and modern technologies such as React.js, JavaScript, and Python. A quick learner with strong problem-solving skills, actively building real-world projects and seeking valuable hands-on experience through remote internships.

EDUCATION

B.Tech in Information Technology

Gandhinagar Institute of Technology (GIT), Gandhinagar University

Expected Graduation: 2027

Diploma Information Technology

Monark University

Year: 2021-2024

PROJECTS

Portfolio Website

- Created a personal portfolio using React.js, Bootstrap 5, and deployed on GitHub Pages to showcase projects.

- Link: <https://nileshmantati.github.io/Portfolio/>

E-Commerce Website

- Built a modern, fully responsive **E-Commerce website** using **React.js**, featuring a dynamic product catalog and an interactive shopping cart.

Implemented key cart functionalities: **Add to Cart**, **Update Quantity**, and **Delete Item**, with real-time UI updates using **React state management**.

- Emphasized state management and clean component structure.
